**REAL EDGE**  
MILD STEEL SECTIONS

# ABOUT US

Incorporated in 1951, SRMB group is proud of its unparalleled experience of six decades and performance that has touched new heights of flawless functioning. Today, the Company has not only taken over the market but has also paved the way for a better future.

An organization certified to BIS standards and accredited to IMS certification (ISO 9001: 2015, ISO 14001: 2015 & OHSAS 18001: 2007), SRMB has an uncompromising zeal for delivering highest quality to serve their customers. In-depth knowledge of consumer needs from a strong & diligent team of new age innovative managers has made them stand out & manufacture hi-tech products.

## Manufacturing Unit

One of the first manufacturers in India, SRMB Srijan Ltd., an integrated Steel Manufacturer, has now introduced grill sections comprising of MS Flats, MS Squares, MS Rounds, MS Angles, Gate Channels & Z Angles strictly conforming to IS 2062:2011 & IS 7452:1990 norms. Unlike most manufacturers who use Chilled Cast Iron Rollers, SRMB RealEdge is made in 100% automated Block Mills with walking type automatic cooling bed that ensures premium quality & excellent finish in the steel sections. This unique endeavour of SRMB in grill production is bound to carve a niche among consumers to emerge as a forerunner in grill solutions.

# SOME OF OUR PROJECTS

**VIDYASAGAR SETU,  
KOLKATA**

**MUMBAI PUNE  
EXPRESSWAY**

**SCIENCE CITY,  
KOLKATA**

**KOLKATA  
METRO**

Some of our prominent clients include:

- **BHEL**
- **NHAI**
- **INDIAN OIL CORPORATION**
- **POWERGRID CORPORATION OF INDIA**

# REALEDGE OVER ORDINARY GRILL DECTIONS

| FEATURES   | BENEFITS   |
|--|--|
| Made from 100% Billets   | Highest quality precision as it is free from structural defects & fins. Structural uniformity makes it safest for fabricators to work with & provides best protection.   |
| Manufactured in block mill rollers with automated cooling bed          | <p>Guarantees perfect shape, superb finish, smooth edges, uniform thickness, flat ends &amp; uniform length of 6 metres in the RealEdge steel sections. It also provides greater malleability for fabrication &amp; perfect finish after welding which helps to produce superior designs.</p> <p>The most economical choice for grill fabricators for its uniform length &amp; defect free structure, which ensures minimum wastage &amp; diminished labor cost as there is no need for grinding or hammering.</p> |
| BIS License  | We hold the BIS license IS 2062:2011 for structural products and IS 7452:1990 for Z Angle (F7D, Hot Rolled Section for Doors, Windows & Ventilators).  |
| ISO 9001:2015,<br>ISO 14001:2015<br>& OHSAS 18001:2007<br>certificated | Generates trust, promotes credibility & ascertains the promise of superior quality.  |

## AZAR FOR REALEDGE

Azar is a corrosion resistant zinc rich solvent coating with excellent barrier protection & cathodic protection. When coated over RealEdge steel sections, it ensures top class protection & longer life. It also enriches the beauty of the fabricated structures with its elegant hue over the steel sections.

# BLOCK MILL ROLLER

SRMB group is the pioneer in using 100% automated Block mills fitted with tungsten carbide rollers, enabling them to produce grill sections with perfect shape, uniform thickness & equal standard length of 6 meters.

# RAW MATERIAL

RealEdge is rolled from superior quality billets produced in SRMB's own plants to ensure quality & consistency. All billets are cast from superior quality ore sourced chemical composition. The billets are tested to maintain the certified composition of Carbon, Sulphur & Phosphorus in the MS sections which makes it the best choice for fabrication.

# COLLING BED

The walking type automated cooling bed promotes faster production & ensures that the products are properly straightened by eliminating the defects that may arise due to manhandling.

# QUALITY CONTROL

Using advanced European Technology, & following superior guide & strict quality management standards of production enables batch to batch consistency & establishes highest precision in the MS Flats (ISF) & Square bars (ISSQ) conforming to IS 1730:1989 and IS 1732:1989 specifications. The RealGrill steel sections also conforms to IS 2062:2011 specifications for weld-convenient & economical choice for fabricators.

## REALEDGE PRODUCT RANGE

- **MS Square** : 8mm / 10mm / 12mm / 16mm
- **MS Flat** : 18.5x5.5mm / 20 x5mm / 20x6mm / 25x6mm / 32x5mm / 40x6mm
- **MS Angle** : 19x19x3mm / 25x25x3mm / 25x25x5mm / 30x30x3mm / 30x30x5mm / 35x35x5mm / 40x40x6mm
- **MS Round** : 10mm / 12mm / 16mm / 20mm
- **Z-Angle** : F7D
- **Gate Channel** : 13feet / 14feet / 15feet / 16feet / 18feet

## RETAIL

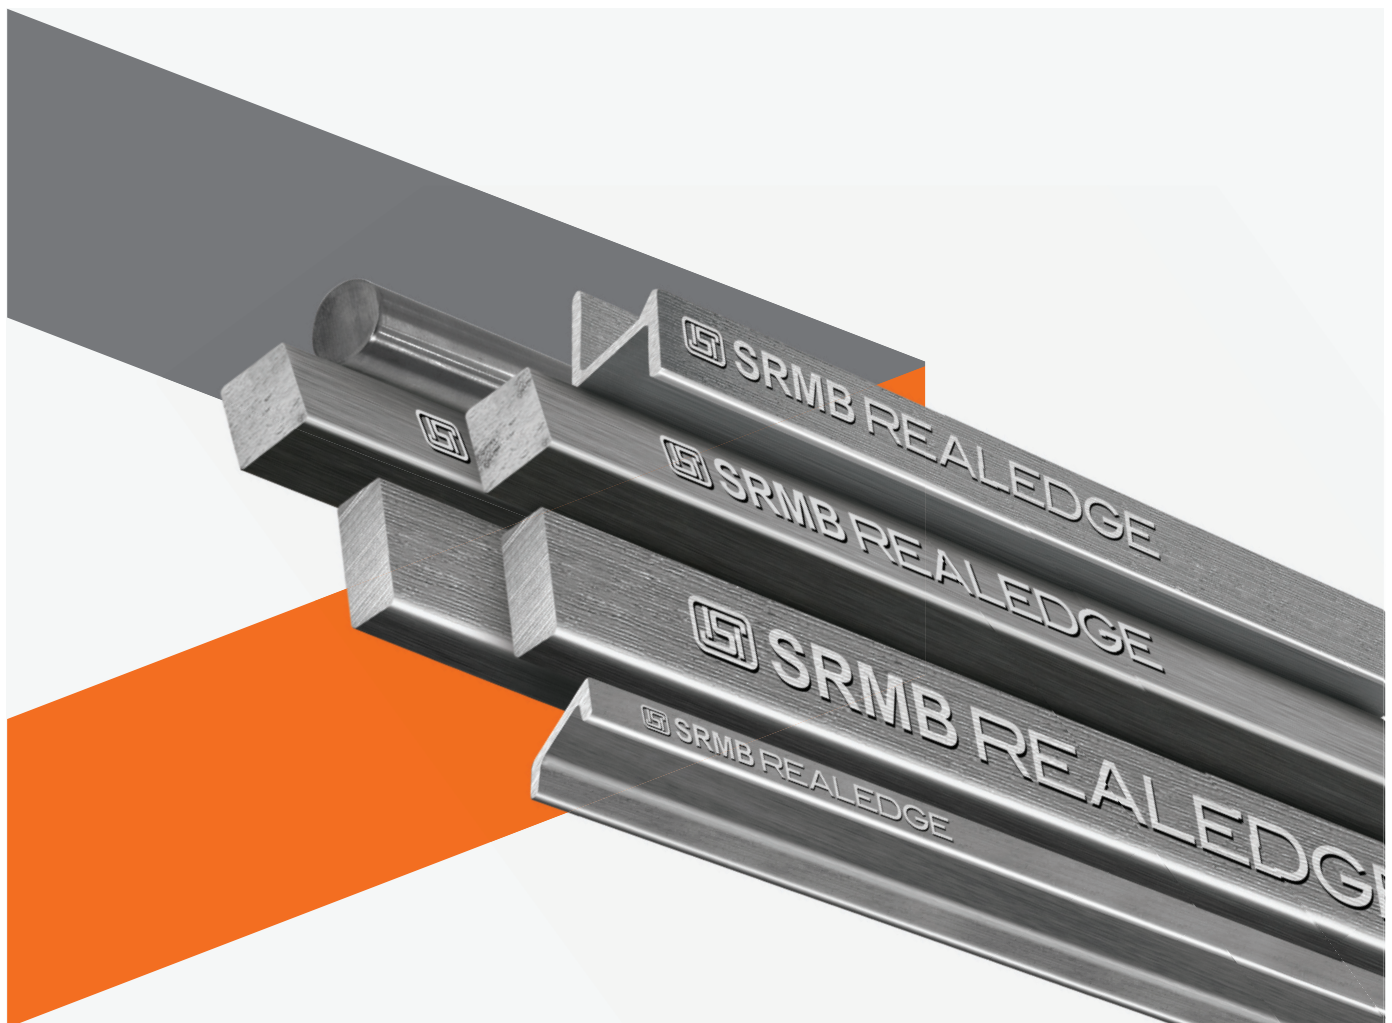

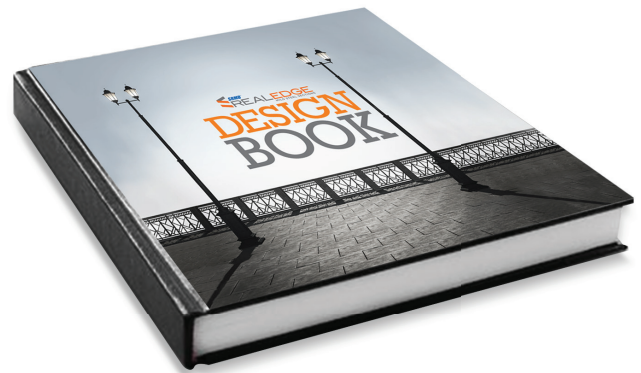

We understand quality and the market. We have a proven track record in the steel industry. We understand the best way to serve you is to reach you. A strong collaboration with trade partners has enabled SRMB RealEdge to showcase a bouquet of exclusive services for the consumers.

Our intricate understanding of market dynamics has enabled us to come up with a unique idea of retail concept. A kind of never before product mix which is bound to serve to serve you best.

# REALEDGE DESIGN BOOK

SRMB RealEdge has come up with the latest idea of "Your Grill, Your Style" - a concept rarely practiced until now. This has been possible because of the manufacturing procedure of the grill section. Greater malleability for fabrication allows one to showcase one's inner self when one makes his/her dream house or dream office. The person's identity is demonstrated through the design of the grill. And as if that wasn't enough, SRMB RealEdge also comes with a designer booklet containing marvelous and innovative ideas for grill designs that helps the buyer rid of clichéd grill designs and turns the fabricator into a designer.

An ISO 9001, ISO 14001 & OHSAS 18001 Company
